

YFIT PHILOSOPHY

The basic philosophy of YFIT is that while we all differ in size, body composition, age, gender and shape, our body's basic dietary and physical needs for survival do not. We all require the same nutrients to function efficiently and effectively.

Additionally, we all require the same functional exercises to keep our muscles and bones strong for independent living. There is no reason why a man and woman should train any differently.

This educational program series is about fueling your body, feeding it what it needs in order to function, improving strength and reducing body fat. It is a lifestyle change intended for permanent and meaningful impact.

The overall goal of this plan is to adopt a healthy lifestyle that supports muscle, decreases body fat, and reduces health risks.

Mission: To put Christian principles into practice through programs that build healthy spirit, mind and body for all.

YFIT PROGRAMS

Commit To Be YFIT

STEP 1: This 12-week behavior change health and wellness starter program is the first step into taking control of your personal well-being. It is designed to help you prevent and/or manage health risks by preparing you to take control and make the best decision to improve your health. Each week a different educational topic will be discussed that will support your efforts in making healthy changes for a long, healthy and fit life.

Education Topics:

- Self Assessments
- Behaviors and habits
- General nutrition and Exercise
- Time Management
- Stress Management

Class limited to Members* only: 6 participants

Program Cost: \$25.00 Members**

* Non-members can participate by becoming a member of the YMCA. Physician referral waives join fee.

** Program fee waived with physician referral.

YFIT Camp

STEP 2: Learn how to properly fuel the body and support all the working systems of the body in this 6-week lifestyle change program. The program empowers you with the tools you need to create positive wellness by improving body composition and reducing health risks.

Weekly Weigh-ins & Body Fat Analysis

Complimentary InBody Analysis
